On 9/3/2015, Express Scripts Inc. PAC (ESI ???PAC) issued a refund check to Express Scripts in the amount of \$1125 to remedy federally permissible employee payroll deduction amounts that had been incorrectly deposited into the Express Scripts PAC due to transition-related errors occurring in conjunction with the merger between Express Scripts Inc. and Medco Health Solutions Inc. The refund check has been deposited into Express Scripts??? dedicated finance account which is used exclusively for payroll purposes. Each of the federally permissible payroll deductions comprising the amount refunded were low dollar amounts and were all reported as un-itemized contributions when made. In addition, none of the contributors had aggregate donations that exceeded the \$200 threshold requiring itemized reporting. Express Scripts Inc. and ESI PAC have implemented procedures to prevent such errors in the future.
